linkedin.com/in/berktoy

A dedicated Front-End Software Engineer passionate about delivering seamless web experiences. Demonstrates a collaborative spirit within teams and exhibits proactive initiative when required. Highly motivated to continually learn, enhance skills, and embrace new challenges.

Projects

Traveler's Diary (Team Project)
- Developed collaborative web application facilitating travel planning and exploration.
- Featured responsive design, country-specific holiday display, and event integration.
- Utilized Calendarific API for holiday data and Ticket Master API for event integration.
- Implemented note-taking functionality for recording travel plans.
- Deployed application available here.

Days Alive - Awareness Against Suicide Website
- Developed a website using HTML, CSS, and JavaScript to raise awareness against suicide.
- The website calculates the number of days lived based on the user's birthday and generates a timeline showcasing positive events.
- Implemented features include dynamic content loading using JavaScript and CSS animations for hover effects.

- **Technical blogging** on berktoy/blog. Personal blog includes my coding journey.

Work Experience

Web Developer   **Freelance**   **2024**
Remote, UK
- As a freelance front-end developer, undertook various projects to design and develop responsive websites for small event groups. Leveraged creativity and problem-solving skills to deliver visually appealing and user-friendly web experiences.
- Designed and implemented custom website layouts using HTML5, CSS3, and JavaScript.

Skills

- Proficiency in **HTML5**, **CSS3**, and **JavaScript**, with expertise in modern frameworks such as **React.js**
- Solid understanding of responsive design principles and cross-browser compatibility
- Experience with front-end build tools and package managers like **npm**
- Strong knowledge of UI/UX design principles and accessibility standards
- Familiarity with version control systems such as **Git**
- Excellent problem-solving skills and attention to detail
- Effective communication and collaboration abilities, both within technical teams and with stakeholders

Education and Certifications

- **Front-End Web Developer Bootcamp,** edX, United Kingdom   **2023 - 2024**
